 - > Switch the blazer to a fur jacket or vest, or push up blazer sleeves to make them $\frac{3}{4}$ length, add a

TIPS:

Bring shoes in shoe bag to easily switch out from office to evening, which can then be placed in your work bag or left at the office.

Keep spare accessories (pair of earrings, clutch, statement necklace in the office or your car to easily change your look for last minute events).

Simple changes...unbuttoning a blouse, cuffing or scrunching sleeves to change the sleeve length, cuffing denim, exposing the cuff and hem of a print blouse below the blazer or jacket can completely transform your look.

Change your hair from office to evening, such as adding a braid, undoing a bun or ponytail from the office to putting hair down for nighttime and adding a bold color lipstick for a fresh style.
