Spring Staple Pieces

Tiered dresses make a statement for the spring season with the flowy movement and modern, loose vibe. Multilayered dresses work for brunches, events, daytime outings to nights on the town. Weddings too! Incorporating a floral print for a double dip into two trends. Crop, kick-flare jeans are a fresh silhouette and style to change up your look for spring. We love them in white, paired with a high-heel sandal and statement necklace. Bold shoulder dresses and tops continue to be a statement piece to wear. Loving this in this season's bolder colors and prints or neutrals.
