

7 WAYS TO GET YOUR CLOSET ORGANIZED

1. SHIRTS

Sort by length of sleeve (tank top, short sleeve, three-quarter length, long sleeve), type of shirt (casual button-downs, dress shirts, blouses, etc.), and color, lightest to darkest.

2. SWEATERS

Use clear dividers between stacks of sweaters on a shelf. Stack 4-5 sweaters maximum in a stack. Purge those that are piling, stained, or have lost their shape.

3. JEANS

Keep only pairs that fit you well in your closet. Hang jeans lengthwise (waist down) to see the legline and pockets easily. Store off-season in bins under the bed or in a separate closet. Organize by style type (slim, boot cut, wide leg, etc.) and color (lightest to darkest).

4. SHOES

Assess what you own with our [wardrobe checklist](#). Try on shoes to see if you like the style and if they are comfortable. Check the condition and take to cobbler for repairs. Line toe facing outwards on shelves/floor or in [clear shoe bins](#) ([men's shoe bins](#)).

5. BOOTS

Display upright in closet filled with [quilted boot shapers](#) or [boot clips](#) to maintain the shape. Store in [clear bins](#) to easily display in closet.

6. ACCESSORIES

Sort accessories by season to make it easy to choose what you will wear. [Clear acrylic bins](#) are great to use in drawers to separate watches, ties, bowties, sunglasses, hair ties, etc.

7. JEWELRY

Purge and get rid of jewelry that feels old, outdated or not your style. Jewelry styles change often! Use neutral [lined jewelry trays](#) to display watches, cuffs, bracelets, rings & more.
